Cloud POS Device Setup

Steps to Setup Cloud POS on devices

1. Go to warehouse URL: *brand*.iposwarehouse.com

Your screen will look as the below image.

The next step is to save this to the Desktop/Home page of the device.

Depending on what device you are using please find below for the next steps:

Apple IOS

2. To save this as an Icon on the HomePage. Press the icon with the arrow in the top right or bottom left depending on device

- 3. Scroll down until you find "Add to home screen"
- 4. Press Add to home screen.

Last update: 2025/07/14 customer_portal:guides:cloud_pos_setup http://wiki.imagatec.com.au/doku.php?id=customer_portal:guides:cloud_pos_setup 14:48

5.Set the name of application to iPOS

It should now display on the homescreen.

6. Open the application

- 7. Press Authorise
- 8. Enter Login details

PC-EFTPOS on CLOUD

You will need to have a Computer running the Windows Operating System, and the PC-EFTPOS software installed on it, then follow the below steps

Open Internet Explorer Click Tools from Menu Bar – Internet Options Set Home Page to *Authorised Device link* OK Security Tab - Local Intranet - Sites - Advanced Add *Authorised Device link*

Call Imagatec to turn on integration for the device.

OPTIONAL: Making a Web App with Chrome, Edge and Internet Explorer

Chrome

- 1. Open the URL that you are wanting to make into a web app.
- 2. Click on the 3 dots at the top right, Go to more tools and click on Create Shortcut

1. A Create Shortcut? Menu will open here you can name the Shortcut and also tick the Open as window option. Then click Create.

http://wiki.imagatec.com.au/

- 1. The Tab will close and re-open as a Window. (If it is the only tab in the window it will also open a new tab for the window)
- 2. That's it! A Desktop Icon and a Start menu Icon will be created and you will be able to pin the shortcut to the Task bar.

Edge

1. Have the page you want to turn into a web app open and click on the 3 dots in the top right.

1. Go to apps and click on Install this site as an app

Last update: 2025/07/14 customer_portal:guides:cloud_pos_setup http://wiki.imagatec.com.au/doku.php?id=customer_portal:guides:cloud_pos_setup

1. A menu will open where you can name the app, after that hit install

1. After that the Tab will close (If it is the only tab in the window it will also open a new tab for the window). Make sure that Pin to Taskbar and Create a Desktop Shortcut is selected.

Optional. The options to Auto-start on device login can be ticked.

That's it there will be a icon created onto the task bar and the desktop.

Internet Explorer
