

# Kml

If you are using our Core CLOUD iPOS or iPIZZA system, you can export your currently configured site boundaries or import your site boundaries KML.

## KML Export

To Export the currently configured KML, Go to:

### 1. Site Boundaries KML Export

The screenshot shows the 'Brown Bag Warehouse' iPOS system interface. At the top, there are navigation links for 'Sales', 'Labour', and 'Stock', and a 'Brown Bag' logo. Below this, the user is identified as 'Imagatec Support Staff' and the date is 'Monday, 5 July 2021'. The main menu is titled '-- SITES --' and is divided into several sections: 'Features' (Store Links, Customers, Cards, Budgets, iOrder, Integrations), 'Warehouse' (Administration, Cube Data, Wizards), 'BUILD POS' (Weekly Specials, Float Defaults), 'Status Reporting' (Snapshot, Dashboard), 'Comparison Reporting' (Weekly Sales, Weekly Sales Compare, Weekly Floats, Weekly Fees, Monthly Sales, Monthly Sales Compare, Quarterly Sales, Quarterly Sales Compare, Order Type Summary, Order Source Summary, Sales KPI, Book Keepers Summary, Menu Analysis, Ranking Report, Records Report, Sales Companion, Payment Summary), 'Sales' (Daily Summary, Sales Reports, Time Reports, Weekly Activity Report, Monthly Activity Report, Sales Comparison Report, Contest Report, Trend Report, Cumulative Trend Report, Daily KPI, Weekly KPI, Calendar Sales, Waste Reports, Product Listing, Product Prices, Product Costs), 'Special Features' (Site Boundary KML Export, KML Text Import, KML File Import), 'Summaries' (Staff Summary, Operator Summary, Operator x Product, Order Type Summary, Order Source Summary, Postcode Summary, Payment Summary), and 'Journals' (Order Journal, Timed Journal, Payment Journal, Product Journal, Free Journal, Refund Journal, Discount Journal, Waste Journal, Un-Paid Journal, Petty Cash Journal, No Sale Journal, Void Journal, Cancelled Journal, Change Log, Integrity Journal). At the bottom, there are buttons for 'Change Password' and 'LOGOUT'. The footer indicates 'iPOS Cloud 2021.07.03'.

1.

### 2. Select the Group or Site that you want to export

1. To download directly to your machine, select True for the Auto Download to happen.

The screenshot shows the 'KML Export' configuration form. It has a 'Groups' field with a text input, a 'Site' dropdown menu currently showing 'Boundary Test', and an 'Auto Download' dropdown menu currently set to 'True'. There is a 'Calculate' button below these fields. The footer indicates 'iPOS Cloud 2021.07.03'.

2.

3. To View directly on your machine, select False to view the KML in your browser
