

Stripe Kiosk Setup Steps

Screenshots to be added

Stripe has to be updated via the Wizard for the Customer Portal, Webhooks and Apple Pay

Products need to be synced to Stripe

Kiosk needs to be built

Lets assume that they never have been built

We should be checking the kiosk works

Check the customer portal allows cancel - Screenshot

Check that the metadata contains the warehouse information -

Screenshot for Internal use

Check that Apple Pay shows in the Kiosk - Screenshot

Can we do a test order with a subscription - Screenshot

Do we get an email? - Screenshot

Does the crystal website show the new sites in the account snippet. - Screenshot

If i cancel the subscription, do i get the email? - Screenshot
