

iOrder @TABLE Configuration

Introduction

The @TABLE Configuration panel allows configuration of the @TABLE 'Store Device' table-order service.

Usage

The @TABLE Configuration panel includes section headings that allow store owners and authorised managers to quickly identify where matching configuration options are located:

The screenshot shows the 'Site @TABLE Configuration' panel. At the top, there's a navigation bar with 'Sales', 'Labour', 'Stock', and 'iOrder'. The 'iOrder' tab is selected, and a yellow 'ACCEPT' button is visible. Below the navigation bar, the title 'Site @TABLE Configuration' is displayed, along with the date 'Friday, 17 July 2023' and the 'Imagattec Australia' logo. The main content area is titled 'LIMITED ACCESS MODE' with a note: '(Greyed-out options can only be changed on approval from Head Office)'. The 'Table Options' section includes a 'Table List' input field with a 'Comma separated' label. The 'Dine-in Options' section has 'Dine-in Payment Min/Max Amounts' with four input fields: 'Pay at Counter' Min \$, 'Pay at Counter' Max \$, 'Pay Online' Min \$, and 'Pay Online' Max \$. Each field has a corresponding note: '0 = no min \$ for 'Pay at Counter' payment option', '0 = no max \$ for 'Pay at Counter' payment option', '0 = no min \$ for 'Pay Online' payment option', and '0 = no max \$ for 'Pay Online' payment option'. Below this is the 'Dine-in Payment Min/Max Messages' section with four input fields: 'Pay at Counter' Min \$ Message, 'Pay at Counter' Max \$ Message, 'Pay Online' Min \$ Message, and 'Pay Online' Max \$ Message. A note says 'Important: Leave empty to use default messages'. The 'Dine-in Payment Methods' section has three dropdown menus: 'Pay at Counter' (set to 'ENABLED'), 'Pay Online' (Standard) (set to 'DISABLED'), and 'Pay Online' (Additional) (set to 'DISABLED'). At the bottom, there's a 'Dine-in Payment Methods' input field with the value 'Cash'. The bottom right corner of the panel shows 'POS 2023 06 24'.

Note: If the store is a part of a Franchise that enforces company-wide business rules, the Site iOrder Configuration panel will open in 'Limited Access Mode', and some of the settings will be greyed-out and cannot be changed. Imagattec Helpdesk will not be able to change any of the greyed out settings without written (emailed) approval from a 'Head Office' representative listed in Imagattec Helpdesk's records for the Franchise.

Table Options

Allows a store owner or authorised manager to set a list of tables that can be selected by the customer using the @TABLE 'Store Device' table-order service.

For example, if the store has inside tables 1, 2, 3, 8 and 10 as well as outside tables OS1, OS2, OS5 and OS6 available to customers using the @TABLE 'Store Own Device' table-order service, the 'Table List' would be:

Table Options	
Table List :	1,2,3,8,10,OS1,OS2,OS5,OS6
	Comma separated

Dine-in Options

Allows a store owner or authorised manager to set the 'Dine-in' options enforced when a customer uses the @TABLE 'Store Device' table-order service.

Dine-in Payment Min/Max Amounts

Allows a store owner or authorised manager to enforced a minimum and maximum ordering amount for the payment methods configured for customers using the @TABLE 'Store Device' table-order service:

Dine-in Payment Min/Max Amounts	
'Pay at Counter' Min \$:	5
'Pay at Counter' Max \$:	250
'Pay Online' Min \$:	10
'Pay Online' Max \$:	100

Dine-in Payment Min/Max Messages

Allows a store owner or authorised manager to change the default message displayed when a minimum and maximum ordering amount has not been met for the payment methods configured for customers using the @TABLE 'Store Device' table-order service:

Dine-in Payment Min/Max Messages	
'Pay at Counter' Min \$ Message :	A \$5 minimum for Dine-in orders applies when using 'at counter' payments
'Pay at Counter' Max \$ Message :	A \$250 limit applies for Dine-in orders when using 'at counter' payments
'Pay Online' Min \$ Message :	A \$10 minimum for Dine-in orders applies when using 'online' payments
'Pay Online' Max \$ Message :	A \$100 limit applies for Dine-in orders when using 'online' payments

Dine-in Payment Methods

Allows a store owner or authorised manager to configure the 'Dine-in Payment Methods' for customers using the @TABLE 'Store Device' table-order service:

1. InStore: Enable/Disable 'Store' payments (eg. cash payments)
2. Online: set the allowed 'Online' payment method (eg. digital payments including eWay, NAB Transact, ANZ CyberSource, PayStation, Stripe)
3. Additional: Enable the 'Additional' payment option (eg. PayPal Express)

Dine-in Payment Methods	
'Pay at Counter' :	ENABLED
'Pay Online' (Standard) :	Stripe
'Pay Online' (Additional) :	PayPal Express
Dine-in Payment Methods :	cash,stripe,paypal,express
