

# PocketKiosk Settings

1. Open Warehouse Administration → Pocket Kiosk Configuration
2. Open Configuration

- 1.
3. To select which payment options are allowed, you can enable or disable the options that you want to allow

- 1.
2. Wallet Payments allow customers to pay via Google Pay or Apple Pay
3. Card Payments allow customers to manually enter or use their browser to prefill the card data
4. Attendant payments allow customers to pay
4. The Welcome, Privacy and Login Screens

- 1.
5. The inputs and required fields are data that you want to collect and enforce

Inputs	
Phone	Enabled
Email	Enabled
Name	Enabled
Rego	Enabled

Required	
Phone	Enabled
Email	Enabled
Name	Enabled
Rego	Enabled

- 1.
  2. For Instance, you can set all inputs to show on the PocketKiosk but only enforce the Rego of the car
6. The upsell toggle buttons text alignment and checkboxes can be customised changed from the system default

Upsell Button Display	
Text Align	Default
Check Box	Both

- 1.
  2. By leaving the text alignment to the default, it will aligned automatically based on where the checkboxes are located
    1. Center aligned if checkboxes are on both sides of the button
    2. Left aligned if the check boxes are on either side (left or right)
7. Press Save at the top of the page when you are finished making the changes
