

Product Upsell Configuration

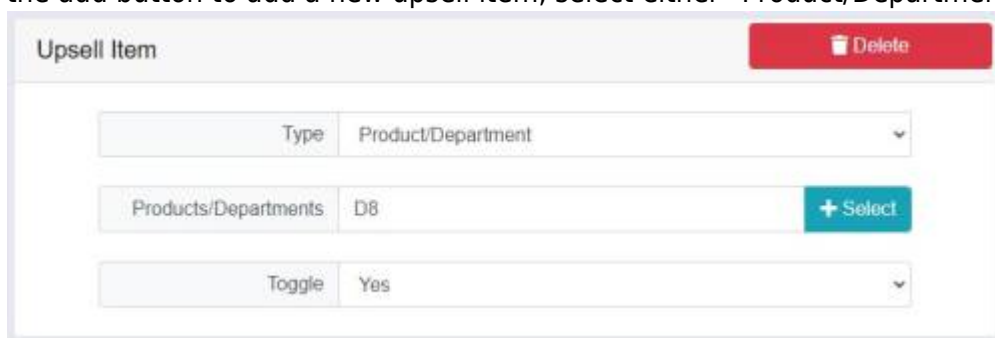

1. Select the department or product that you want to configure an upsell for

1.

2. Press the add button to add a new upsell item, select either "Product/Department" or "Element"

1.

2. If selecting "Product/Department":

1. Select the product or department that you wish to display
2. Select if the products will be toggle buttons (meaning that you can select more than product)

3. If selecting "Element"

1. Select the type of element that you want to show

3. Drag and Drop the Upsell items in the order that you want them displayed in

The screenshot shows a web interface for configuring upsell items. At the top, there's a 'Configuration' header with navigation icons. Below it, a 'Display Name' field is set to 'Department : Wash Menu'. The main section is titled 'Upsell Items' and contains two identical forms. Each form has a 'Type' dropdown set to 'Product/Department', a 'Products/Departments' field with 'D8' and a '+ Select' button, and a 'Toggle' dropdown set to 'Yes'. The second form also has a 'Key' dropdown set to 'Divider (No Value Required)' and a 'Display Value' field set to 'Display Name'. Each form has a red 'Delete' button.

1.

4. Press Save at the top of the page
