Configuring Stripe Payments

- 1. Get the Api Keys from your Stripe account or follow the onboarding process in step 2
 - 1. Refer to the Stripe link here to get the keys
- 2. Select the Stripe link to go to the stripe payment integration

4. Select API Keys from the stripe integration page

3.

5.

- 1. Select the mode that you wish to be in,
 - 1. Live Mode should equal "LIVE MODE" if you are planning on taking real payments
 - 2. To test the system, set LIVE MODE to TEST so that it does not take payments
- 2. Select the stripe method you are after:
 - 1. Imagatec Connect: just needs the account that was set up with the wizard, this will usually be set up for you if this is selected
 - 2. Direct Connect: If you have set up standard accounts to charge directly, then you will need to get the account ID you plan on using
 - 3. Transfer Connect: If you have set up standard accounts to charge via your account, then you will need to get the account ID you plan on using transferring the funds
 - 4. Self Managed: If you have your own account with Stripe without any connect accounts.
- 3. Enter the Public Key and Secret Key that you got in step 1

6. Press Save when complete
